

Does your CPA have
Restaurant Experience?

CLIENT ACCOUNTING SOLUTIONS FOR

RESTAURANTS

Haynie & Company provides peace of mind that you have a team of experts handling your accounting needs. Careful accounting and strategic planning are vital to the business development and continued success of restaurant professionals, food scientists, manufacturers, and others in the food and beverage industry. At Haynie & Company, we put our years of expertise to work for you with high-quality consulting services, certified public accountants, and other resources. Our goal is to help your business grow with our CPAs for restaurants.

We offer full-service accounting for restaurant owners and others in the food science or restaurant industry. CPAs for restaurants assist your food & beverage business with taxes, strategic planning, accounting, bookkeeping, audits, and much more. We have extensive experience serving the hospitality industry. Our hospitality specialists have helped franchise clients, including Denny's, Jack in the Box, Subway, Crumbl Cookie, Del Taco, and others, as well as many local restaurants, bars, breweries, and wineries.

What You Can Expect

Our firm vision is simple: Exceeding Expectations. Providing excellent service is our highest priority. Our focus will always be on building long-term relationships based on growth, trust, family, service, and communication.
